University Service Hours Explanation Sheet

As a result of your conduct hearing, University service hours have been determined as a sanction.

Choose a location to complete your community service. If you choose to work with a campus partner, listed on the bottom of this form, you do not need to get approval from the Dean of Students Office to complete your hours. If you would like to work with an organization in the community, you will need approval from the Dean of Students Office before you begin your hours.

The following table outlines steps to follow for both community service options (choose one option):

It is your responsibility to complete your hours on time, plan accordingly. We will not grant deadline extensions due to inability to schedule your hours – be proactive with your efforts.

Be aware of the following information regarding your community service:

- The hours must be completed by the sanction date listed in your email. If they are not, a HOLD will be placed on your ability to add/drop courses.
- Your hours must be completed in a minimum of 4-Hour time periods.
- You are responsible for verifying and adhering to the appropriate attire and footwear required for your place of service.
- Your university service hours should be scheduled with your school and work responsibilities in mind.
- You may be required to work your university service hours off during the evenings or on the weekends.
- Your community service supervisor will determine the amount of time and effort you have put into a project and will mark that down accordingly on your Service Hour VERIFICATION FORM.
- When your university service hours have been completed, you must return the service sheet back to your conduct hearing officer so that it may be included in your student file with the Dean of Students and you are given credit for completing this sanction.
- Do NOT lose your Service Hour Verification Form! You are the person responsible for it. If you lose this sheet, you may be required to re-do hours you have already completed.
- Your immediate community service supervisor will be the only person aware that you are working as a result of a conduct sanction. Many students work on a campus and thus you should blend in easily with the other students working within the department.
You do not get to determine what is or is not appropriate when working off your university service hours. If you have questions about the type of work you are required to perform, you may address those initially to your immediate community service supervisor or your student conduct hearing officer.
